

# WILDLIFE DISPLAYS

*Interactive Wildlife Experience*

Animal Welfare Regulations 2018 No: 19/00454/AIAL

Offering animal displays for county shows & fairs, festivals, corporate events, wedding receptions, schools, animal talks, animal birthday parties.

**YOU NAME IT WE DO IT.**

Wildlife Displays was formed by Bryan Paterson during 1976 offering Falconry Displays at a time when there were very few similar displays available.

Today Wildlife Displays offers an interactive educational display with a variety of exotic animals. These displays are suitable for both in or outside presentations and can be themed to suite special occasions.

Bryan and his team members are interactive throughout the day with a hands-on approach with a variety of animals including Snakes, Spiders, Scorpions, Insects, Meerkats, cute and cuddlies and Birds of Prey.

All of Bryan's animals are captive bred, hand reared and used to being handled from an early age in a show environment.

WILDLIFE DISPLAYS
